

# velleman®

## Product Data sheet

**VELLEMAN**

(Brand)

**PCB holder**

(Product name)

**VTHH6**

(Product identification)

**Manufactured / imported by:**

VELLEMAN NV.

Legen Heirweg, 33

9890 Gavere

Belgium.

The PCB holder with stand is an essential tool for precise soldering and repair work. The adjustable soldering holder securely clamps circuit boards up to 14 x 20 cm, allowing for precise work. With the 360° rotatable PCB stand, you can easily rotate and tilt your PCB to achieve the best working angle. The sturdy metal base ensures stability, even during intensive use. Lightweight, compact and ideal for any soldering station or electronics workshop.

**Specifications**

Depth unit 16.5 cm

Height unit 30 cm

Width unit 12.5 cm

Weight unit 450 g

Material Metal

Maximum height circuit board size: 20mm

Maximum width circuit board size: 14mm

Set-up options

Adjustable angle

Adjustable length
